Referee Services

The Scandinavian Journal of Economics, The Grantham Research Institute (LSE) Working Paper Series.

Professional Experience

The European Central Bank - ECB Monetary Policy Research Directorate Frankfurt, Germany
Guest

July 2022 and January 2020 – February 2020

- Working on a research project on green asset pricing and optimal monetary policy in time of covid-19;
- Liaising with ECB economist (Ivan Jaccard) on the topic.

BMcR & Associates (consultancy group)

France, Morocco

Senior Advisor

January 2018 – September 2018

- Assessing the value of green investment through macroeconomics modeling;
- Leading research seminars and studies on local strategy development;
- Formalizing and presenting final report and recommendations to different state stakeholders.

Ernst & Young LLP

France, Canada, China, the Netherlands, Saudi Arabia, Singapore, South Africa

Senior Consultant, EY Advisory

October 2014 – February 2018

Missions principally focused on Management & Operational Strategy as well as Financial & Innovation Projects, including developing methodologies for evaluations across multiple sectors; conducting interviews (including with high-level international personnel); leading expert workshops; designing and implementing large scale questionnaires and surveys; conducting background research and documentary review; collecting & cleaning, integrating data and statistical analyzing; conducting benchmarks; drafting intermediary and final reports destined for public release and high-level decision makers; project management for a 1 million euro+ assignment implemented by a multinational consortium led by EY; development of over a dozen proposals for services. Selected examples of missions include:

Power & Utilities

- Strategic due diligence (for a world energy leader):
Performed an activity diagnosis (development cycles, development perspectives, product distribution, etc.), a productive and commercial diagnosis as well as a risk analysis (e.g. production management, etc.).
- Strategic alignment (for a world environment/energy services leader):
Identified and planned a new strategy to align all business processes of acquired subsidiaries on 5 continents; reviewed governance implementation of all core divisions "Environment, Manufacturing, Management ..."; analyzed the segregation of duties (SOD) matrix and all accesses for the critical business transactions; formalized and presented recommendations and initiated good practices discussions with top management; provided ad-hoc support in the development of the implementation of the new processes.

Government Public Sector (GPS)

- Policy evaluation and analysis (European Commission):
Analyzed, reviewed and suggested new security policies to be implemented within the European Commission.
- Economic evaluation of public health programs (for a French governmental institution):
Analyzed and reviewed all 2015 implemented projects within the French healthcare social system institutions liaising with key and high profile directors and judges to develop accurate descriptions of relevant deliverables; studied the impact and financial risks related to statistical methods used to calculate the provisions for the 2016 fiscal year mainly with SAS programs; edited and drafted sections of final report.
- Statistical study on performance measurement (for a French health governmental institution):
Conducted statistical analysis; and presented conclusions and recommendations to the management.

Air France - KLM

France, the Netherlands and Hungary

Strategy/Business Analyst, Finance & Economic Department

September 2013 – October 2014

- Governance policy assessment through financial restructuring: managed system restructuring, assessed as well as evaluated the current business processes and helped mitigating related risks, strengthened internal controls and helped improving business performance related to environmental friendly policies;
- Analyzed, evaluated, and proposed enhancement for all financial business processes through conducting interviews within different stakeholders to help determine and identify departmental needs, as well as studied and proposed improvement solutions to reduce environmental waste;
- Constructed specifications, KPIs, and assessed the request for proposal (RFP) elaboration as well as the scoring matrix; and analyzed RFP responses and assessed the committee on the choice of the proper new information system, resources and controls to maximize efficiencies and minimize risks.

BNP Paribas Corporate & Investment Banking (CIB)

Paris, France

Junior Strategy Analyst, Strategic Management "Finance & Development"

January 2013 – July 2013

- Proposed and implemented an appropriate strategic action plan through defining and implementing the CIB Finance & Development internal wiki regrouping all projects within "Finance & Development" department; and built and proposed operational recommendations for finance transformation projects enhancement.

BNP Paribas Securities Services

Paris, France

Junior Analyst, Financial Information Systems (FIS)

July 2011 – January 2012

- Developed and managed financial IS within BNP Paribas Securities Services; helped enhancing financial IS platforms for internal clients through conducting interviews with financial risk department based in Belgium and Luxembourg and developing as well as managing market and client update platforms; as well as prepared and posted frequent market updates and weekly newsletters regarding liquidity issues.
